Ambulance 2 Sanitka 2

Continuation of the series about the emergency medical service which was highly popular in the 1980s, featuring some of the original characters - for instance doctor Jandera, his great love Eliška, and brother Jarda with his girlfriend Alžběta. They are just "somewhat" older, and have plenty of personal and working experience which they are more or less managing to put to use. And there are other, completely new figures appearing in the thirteen episodes about the emergency services of today. Doctor Jandera becomes witness of an assault and murder attempt in the street, and tries to use a totally unique rescue technique - direct massage of the heart.

Part 8

A woman who has had a stroke cannot speak, but still tries to call the emergency service. Will Eliška Janderová succeed in guiding the airborne paramedics to the right place? The crash of a man on a stolen motorcycle, resulting in serious injury, is another case for the paramedics.

Part 9

Drugs – especially when abused by young people: that's another great problem with which the paramedics are confronted. They cooperate with the police when it is necessary quickly to identify their source. A serious accident at which they are intervening has an unexpected aftermath: the victim's distressed husband assaults doctor Foldýnová.
