TALKS WITH TGM (Hovory s TGM)

The film *Talks with TGM* features T. G. Masaryk and Karel Čapek, two extraordinary men, the best kind of people who have ever lived in our country. It promotes the idea of the first Czechoslovak republic (1918-1938) as a deeply meaningful and important concept. But at the same time it shows that even for extraordinary people, emotions can sometimes be stronger than ideas. The film touches on the relationship between literature and life: the former reflecting the latter, which is not always obvious though, on the contrary. The most difficult thing in life is to reach one's own inner truth.
